

# Qualification Factsheet

## The Lumina Community

The Lumina community of practitioners are experts in their field. Joining this community will provide you with the support needed to design and deliver stunning, customised interventions, using the world class four colour Lumina Portraits and an environment where core knowledge is accessible at the click of a button. This is a very effective group of professionals who can design large scale, themed, learning interventions for your clients.

## Qualification Overview

As a practitioner the Lumina qualification puts the full range of Lumina's inspirational and practical resources into your hands. This includes a portfolio of integrated Lumina Portraits for different application areas, supported by workbooks, job aids, PowerPoint presentations and e-learning as a resource. Together, they collectively form Lumina's carefully distilled knowledge of industry best practice.

Combining this best practice with your knowledge of your clients' unique requirements, results in inspirational designs executed with competence and passion. Lumina conducts the qualification as a three day intervention with ample opportunity for practical experience, so that at the end of the last day the practitioner is 'airborne' and ready to put their new found resources into action.

# Qualification Agenda

## Day 1

### Experience of a Lumina Spark Workshop

This highly interactive day will provide you with an inspirational experience, using your Lumina Portrait in a workshop format. You will experience 'best practice' in facilitating/coaching, with highly effective and proven processes. This will help you generate ideas for how the concepts can be practically applied in your client accounts.

## Day 2

### Understanding the model, mandala and Lumina Portrait

We will provide more detail on the background of the model, to enable you to have complete confidence, so that you understand it and can handle any learner's difficult questions. The links between Jungian psychology and the 'big five' will be discussed in addition to the latest thinking in business psychology. During the day you will have the chance to practise your own Lumina Portrait feedback skills.

## Day 3

### Facilitation and/or coaching - a practical experience

The last day involves more practical experience of either facilitating or coaching with the model. We will examine how the model can be used in differing contexts and generate quite different outcomes. Finally, ethical issues will be highlighted and the follow on qualification processes planned.
